TEMPORARY TATTOOS; NOT JUST FOR KIDS ANYMORE!

September 2011 Tallahassee Fl. – When was the last time you saw grandma sporting a multi-hued butterfly? If she was at recent FairyDust Faces celebrations the chances are fairly good! Proving that moms and grandmas are still hip, party hosts everywhere are getting in line with their teenagers and showing that body art isn't just for kids.

At a late summer Bar Mitzvah four generations of Josh's family decided on matching butterflies – even the men in support of great-grandma who had always wanted to get a real tattoo in her early years. "I think this is so great, I get the tattoo I always wanted but can take it off tomorrow!"

FairyDust Faces offers a dazzling and dramatic array of body arts from face painting and airbrush tattoos to henna body art, sweat-proof airbrush face painting and glitter tattoos. They transform average events and private parties into show-stopping crowd-pleasers. Licensed, insured and fingerprinted with local law enforcement, this award-winning company has a proven track record with event organizers, municipalities, corporate entities and backyard parties everywhere. FairyDust Faces brings your guests imaginations to life!
